Invitation to attend

Forum for e- Health, Telemedicine and Biomedical Sciences

MEDITEL 2008 offers a platform to meet, interact and network with qualified specialists, users, buyers, healthcare providers, industry representatives, researchers and policy makers from India and abroad.

The event will showcase successful products in the Indian healthcare environment and discuss the challenges in their implementation. The use of ICT for "Health Education & Research" is the theme of this conference.

MEDITEL 2008 will feature an exhaustive conference program with more than 100 presentations along with workshops on a wide variety of topics to learn about what is latest in e-health and the likely future trends.

MEDITEL2008 like its past conferences- is an event not to be missed. It will provide an ideal opportunity for knowledge enhancement and networking.
